

“
The City of Tracy shares the concerns of many small businesses about the rising cost of energy and the impact these costs have on your livelihood. In order to demonstrate our concern, we have decided to take part in a state-funded, energy savings outreach program so that together we can make some positive changes towards true energy efficiency.”

- Dan Bilbrey, Mayor of the City of Tracy

“
Out here in the hot Central Valley, air conditioning usage accounts for a large portion of business energy use and leads to extremely high energy bills. In many cases, better energy awareness could reduce energy usage and help control these cost for our businesses.”

- Steve Probst, Manteca Public Works Department

Know more about energy efficiency from:

THE WORLD IS AWAKENING TO A NEW LIGHT!

ARE YOU?

Want a Different Way to Save Money? Why Not Try a Different Rate Schedule!

Time Of Use

Pay a different rate based on the time of day! If you can shift your energy use to the morning or evening, you can save a large amount of money. Call **PG & E** at 800-468-4743 for details.

Demand Response Programs

Get paid to reduce your energy during emergencies! For details, go to http://www.pge.com/biz/demand_response/ or call 800-468-4743. You may also call the California Independent System Operator (ISO) at 916-608-5832 to become involved in their Voluntary Load Reduction Program.

TIPS TO SAVE ENERGY

LIGHTING

- Turn lights off when you leave.
- Install compact fluorescent lamps (CFL).
- Retrofit T12 tubular fluorescent lamps with T8 lamps.
- Clean your light fixtures every 6 months.

OFFICE EQUIPMENT

- Turn off all electrical equipment when you leave and use power saving features.
- Purchase ENERGY STAR® equipment.

FOOD SERVICE EQUIPMENT

- Turn off backup cooking equipment during low production periods.
- Use low flow rinse valves.

HVAC

- Install programmable thermostats.
- For heating, set thermostats 68° F during business hours and 60° F after hours.
- Perform scheduled maintenance.
- Insulate attics, walls, water heaters, and hot water pipes.

REFRIGERATION

- Keep evaporator coils clean and free of ice build-up; defrost regularly.
- Perform scheduled maintenance.
- Adjust door latches and replace worn door gaskets. Install auto door-closers and strip curtains on walk-ins.
- Use night covers on display cases.

ADDITIONAL RESOURCES for BUSINESS CUSTOMERS:

San Joaquin Energy IQ Program: Free energy surveys. For details, call Intergy at 925-461-1314.

EnergySmart Grocer: Rebates and energy surveys for small grocers. For details, go to <http://www.energysmartgrocer.org> or call 800-230-9420.

Express Efficiency: Equipment rebates for PG & E customers. For details, go to http://www.pge.com/biz/rebates/express_efficiency/index.html or call 800-468-4743.

Multifamily Property Management: Equipment rebates. For more details, please see: <http://www.pge.com/res/rebates/#topic2>, or contact PG&E's Smarter Energy Line at 800-933-9555.

MID Commercial Rebates: Equipment rebates for Modesto Irrigation District customers. For details, go to <http://www.mid.org/services/rebates/default.htm> or call 209-526-7339.

California Consumer Energy Center: Links to conservation and renewable energy use information. For details, go to www.consumerenergycenter.org.

Energy Star®: Information about energy-efficient appliances, office equipment, and more. For details, go to www.energystar.gov.

Standard Performance Contract (SPC): Cash payments for installing new high-efficiency equipment or systems. For details, go to http://www.pge.com/biz/rebates/spc_contracts/index.html or call 800-468-4743.

New Construction Program (Savings by Design): Energy-efficient building design and construction resources. For details, go to www.savingsbydesign.com or call 800-468-4743
